Const.

--50. (NEW) A method according to claim 43, wherein the *six* sites are integrated in the genome and wrapped on a nucleosome at several locations.--

--51. (NEW) A method for gene delivery in human gene therapy, comprising introducing prokaryotic beta recombinase and its specific target sequences in a human.--

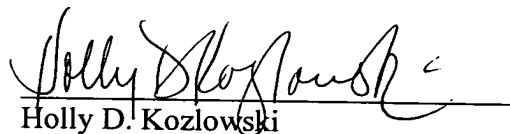

Sub
BS

--52. (NEW) A method according to claim 27 for development of transgenic animals.--

REMARKS

By the present amendment, claims 1-26 are cancelled and claims 27-52 are presented in order to set forth the invention according to customary U.S. patent practice. Claims 27-30 contain limitations from claims 2-4 and 6, respectively. Claims 31-40 contain limitations from claims 5 and 7-15, respectively, while claims 41 and 42 contain limitations from claim 16. Claims 43-52 contain limitations from claims 17-26, respectively. Since these claims do not involve any introduction of new matter, entry is believed to be in order and is respectfully requested.

Respectfully submitted,

Holly D. Kozlowski
